

Windsor Door

America's Choice Since 1964

1035 PREMIUM BUILDER DOOR

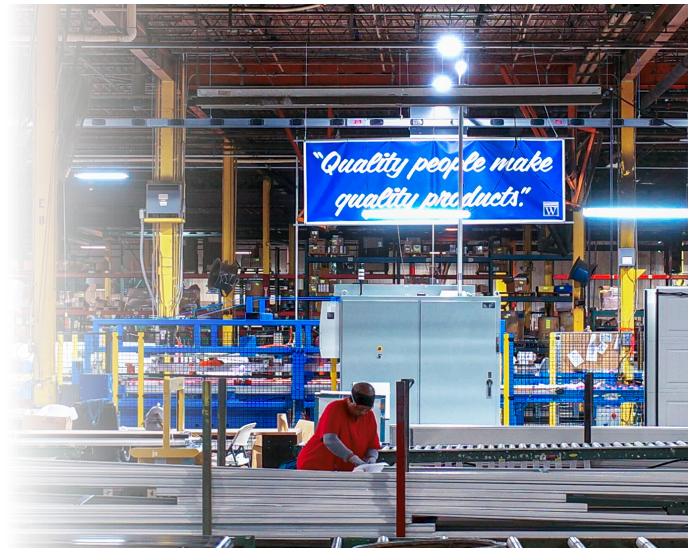

The Windsor Model 1035 is the choice of national and custom home builders throughout the country. It is crafted with 25 gauge steel and has optional glazing and 2" insulation.

About Windsor Door

For over six decades Windsor Door has set the industry standard in garage and overhead doors. Based in Little Rock, Arkansas and made in the USA, Windsor doors are a reflection of the evolving architectural style of homes nationwide.

Windsor Door is proud to supply dealers, national home builders, custom and regional builders, and commercial builders from coast to coast.

1035 SPECIFICATIONS

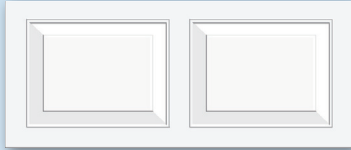

All designs are built with 25ga preprinted steel. The sections are 2" thick, the edges are hemmed, and tongue and groove joint add strength and keeps the outside out.

TOX fastening system attaches the stiles with the end stiles being attached to the face of the door to add strength and durability.

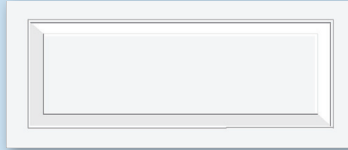

The model 1035 comes with the option of CFC-FREE laid in place 1 3/4 polystyrene with a 6.0R-Value. The model 1035 comes standard with a CFC-FREE laid in place 1/2 polystyrene.
